Easy Ways to Save Water.....	10
September is "National Preparedness Month"	12

FIREMED OPEN ENROLLMENT

FireMed is a statewide subscription ambulance service provided through city governments or local fire districts. FireMed provides ambulance transport to the nearest appropriate hospital and medically-required transfers from one hospital to another that require basic or advanced life support care from an Emergency Medical Technician. FireMed members who require emergency medical transportation or medically necessary hospital-to-hospital transportation will have their insurance payment forwarded directly to the City of Dallas as payment in full.

The Dallas Emergency Medical Service provides emergency medical care and transportation to the City of Dallas and surrounding area. The service is administered through the Dallas Fire Chief who supervises the Emergency Medical Service Director, six full-time paramedics, and thirty part-time emergency medical technicians. The City Council establishes rates and fees to offset the cost of operation incurred on the general budget. The City of Dallas FireMed program is another means to support the costs of operation.

FireMed Open Enrollment runs from September 1 through October 31.

MEET YOUR COUNCILOR

Each month we will use this space to highlight a different Councilor:

Councilor Kevin Marshall, a third-generation “native” Oregonian, was born and raised in The Dalles. He completed his undergraduate studies in Psychology at Lewis & Clark College in Portland followed by Master’s and Doctoral programs in Rehabilitation Counseling and Psychology at the University of Northern Colorado. He has worked over 35 years in Rehabilitative Psychology in a variety of positions including clinical counseling, rehabilitation services management, psychological evaluation and graduate-level directing and instructing (at Western Oregon University). He is currently employed by Garten Services, Inc., a Salem-based not-for-profit rehabilitation facility (they have a Dallas base, as well).

Kevin and his wife Carol purchased a home in Dallas in 1989. They soon decided they wanted to both live and work here and purchased Cynthian Café & Catering on Main Street a short time later. They operated Cynthian for 17 years at that location until selling it in 2007. He was initially appointed to fill a vacancy on the Dallas City Council in 1994, and subsequently (re)elected since that time. He is a past president of the Dallas Rotary Club, has been a Dallas First Citizen and has served on Boards for Jensen Arctic Museum, American Red Cross, Western Oregon University and a variety of others.

Kevin and Carol have been married over 25 years, have two children, four grandchildren and a dog named Reilly. Kevin has been a musician most of his life (percussionist/drummer), enjoys boats & boating and travel to new and different places. He loves living in Dallas and feels it is a privilege to be able to “give back to the community” by serving on the Council.

WATER USE EFFICIENCY IDEAS FOR RESIDENTIAL LANDSCAPES

There are many ways you can reduce the amount of water used in landscaping while maintaining the health, appearance, and function of your landscape. Below are some suggestions to help conserve water.

Irrigation System:

Read your irrigation controller (timer) manual to understand its features. Learn how to adjust the controller and change the setting when plants need less water. Replace lost manuals - many can be downloaded from the manufacturer's website. You will need the model number of the controller. Change the controller battery at least once a year to preserve the schedule in case of a power failure. A power failure may cause the controller to revert to the default

setting, which will probably not water the correct amount. Adjust the sprinklers so that they don't spray pavement, fences, or buildings. Install a rain shut-off device. Check for leaks, sprinkler head misalignments, broken pipes, and other system problems at least twice a month. If your automatic irrigation system normally runs at night or when you are unable to observe the system's operation, run the system manually for a short time during daytime. Watch for signs of irrigation system problems such as dry spots, ponding, erosion, and soggy spots. These indicate the system may need adjustment.

Water trees and shrubs less frequently than lawns and deep soak them occasionally to promote deep rooting. Check soil moisture below the surface with a soil probe or large screwdriver. Don't assume the plants need water just because the soil surface looks dry. Water only during the late afternoon, night, and early mornings to minimize evaporation. Don't water when it is windy or raining. Shady areas can be watered less frequently.

Use a hose timer to shut off automatically when watering with a hose end sprinkler.

Watering:

Keep a written record of last year's watering schedule near the controller unit and use it to program this year's schedule. If you think the landscape needs less water than it received last year, shorten the run times, or lengthen the time interval (days) between run times. Adjust irrigation controllers with the seasons. For example, start out in late spring with about 50% of the water that will be used in summer. Be sure to turn the controller down, or off (if possible) in the fall. Use the water budget or seasonal adjust feature (%) on the controller to make adjusting easier. Use low output sprinklers such as drip, soaker hoses, and microspray whenever possible. Use "cycle and soak" or multiple run times on the sprinkler controller. Dividing the total watering time into shorter increments allows water to soak in to avoid runoff.

Plants:

Prune only to rejuvenate and restore the health of the plant. If you must prune heavily to keep a plant small, consider replacing it with a plant that will mature at a smaller size. Add compost to improve the soil and spread mulch over garden beds to slow evaporation and reduce weeds. Use balanced, slow-release fertilizers. Clean the filters in sprinkler heads and drip systems regularly. Use sprinkler heads with matched precipitation rates; don't mix types of sprinklers on one line. Allow for a five minute recovery between station run times to ensure adequate water pressure to operate the irrigation system.

Design new landscapes with native plants or ornamental plants from a similar climate. Consider renewing existing landscapes with water wise plants. In dry weather, place a saucer under potted plants to hold water for plants to drink when the soil dries out.

Replace "space-filler" lawns with rock gardens, mulched areas, or ground covers. Reduce lawn area to the size your family actually uses. Use lower water-use grass types such as Hybrid Bermuda, St. Augustine grass and Dwarf Tall Fescues on new and rehabilitated lawns. Use a higher setting on your mower blade when mowing your lawn; the longer grass blades will shade the soil and roots, which helps retain moisture. Remove the collection bag when mowing; grass clippings will decompose quickly, returning nutrients to your lawn that would otherwise be thrown away. Aerate lawns and remove thatch as necessary.

Hardscape:

Sweep sidewalks, patios and driveways instead of hosing them down. Use a bucket and automatic shut off sprayer when washing cars and boats or go to a car wash that recycles wash water. Use permeable paving wherever possible to allow rain to soak into the ground rather than run off. Use pool and spa covers to reduce evaporation.

Community:

Share ways to conserve water with family members. Report leaks, broken pipes and out of adjustment sprinklers in common areas and parks to property associations or the City. Consider attending community college, cooperative extension or adult education classes and workshops to learn better horticultural practices. Use licensed and qualified landscapers and arborists for better quality work and healthier gardens. Look for professionals that advocate wise water use. Some professionals can help you develop an efficient irrigation schedule. Make sure the landscape professional you hire knows that wise water use is important to you.

For further information, check out the information at the end of this newsletter, or contact the Public Works Department at 503.831.3562.

CODE ENFORCEMENT

It is the job of the City's Code Enforcement Officer to ensure property owners comply with City Code. Below are two of the violations seen most frequently throughout the City:

Dallas City Code 5.556 deals with scattering rubbish. Among the violations of this code is the blowing or placing of yard debris, such as grass, leaves, or other debris on the sidewalk or street. The only exception to this is during the short period of time in the fall when the City allows residents to place leaves only along the curb for pick up by our street crews. We ask residents to use the yard debris bins provided with their trash cans to dispose of yard debris.

Parking on the streets of Dallas is regulated in some areas by signs. There are areas in the downtown, for instance, with time-limited parking spaces. Where there are no signs, Dallas City Code 6.320 states a vehicle must not remain in substantially the same place for a continuous period of 72 hours. This does not mean you cannot park your vehicle in the same place in front of your house every evening when you get home from work; simply that you cannot leave it there for longer than 72 hours at a time.

If you have questions about these or other City Codes, please contact our Code Enforcement Officer at 503.831.3512.

PROACTIVE COACHING MOTIVATIONAL SPEAKER

We would like youth coaches, coordinators, organizations, players, and parents to attend this very important event on September 14 and 15 (see details below).

[We have an exciting opportunity through the Booster Club and a generous grant to provide athletes, coaches, parents and students with a chance to hear a message from a speaker associated with Bruce Brown, Director of Proactive Coaching. Bruce Brown has been working with athletes, coaches, and parents on character and competence in the culture of sport. Bruce has written 11 books, 15 coaching booklets, and produced 12 instructional and character-based coaching DVDs. He has presented to over 500,000 people since 2002 and](#)

received the following awards:

- 2004 - Mike Krzyzewski College of the Ozarks Leadership Award
- 2005 Co Recipient with Cal Ripken Jr. of American Baseball Coaches Association "Honor" Award.
- 2008 John Wooden Wall of Honor

The speaker will present three programs to different target audiences: Coaches and team captains, all athletes and club participants, and Parents. The schedule of events will be as outlined.

Wed. Sept. 14

6:30 p.m. Meeting for parents of athletes or club members, Coaches, and other invitees

Thurs. Sept. 15

7:30 a.m. Meeting w/ Coaches, Team Captains, and Leadership

8:30 a.m. Required attendance for all Athletes, Sports teams, Club participants, etc.

Period 0	Cancelled
Period 2	9:30 - 10:45
Period 4	10:55 - 12:10
Lunch	12:10 - 12:45
Period 6	12:45 - 2:00

Students not participating in the meeting would not need to arrive until 9:30 for class. Buses will run at normal times and we will house those students in the forum if they are not attending the program.

For more information, contact the Dallas High School at 503.871.1976.

CITY OF DALLAS URBAN RENEWAL PROJECT

Court Street Sidewalk Replacement and Enhancement

The Court Street Sidewalk Project will begin the week of September 12 and be completed no later than October 15.

The project will involve the removal of the existing sidewalk on the south side of Court Street from Main to Church, widening of the sidewalk, including a paver strip as well as pervious concrete and rain gardens to ensure effective and environmentally friendly storm drainage.

The project will also include new decorative lighting that can accommodate hanging flower baskets, new street furniture, and new street trees. City staff has been in close contact with all of the business and building owners, and will be available during the project to resolve any issues that may arise.

The project cost is approximately \$90,000 and is being funded by the Dallas Urban Renewal Agency as part of the downtown revitalization process.

Any questions can be referred to the Dallas Community Development at 503.831.3565.

DALLAS'S NEW COMMUNITY SERVICE OFFICER

On August 1, Diane Lanxon joined the police department as a Community Service Officer, filling a vacancy. CSOs are civilian employees who perform a variety of important roles within the police department. (Another example of a CSO is our Dog Control Officer.)

Diane's primary responsibility will be as a community liaison; however part of her time will be dedicated to working in police records and in property and evidence, as well as coordinating our Volunteers In Policing program.

Her role as the community liaison will become the most visible with community members. Her duties will include organizing and holding neighborhood watch meetings, giving homeowners and businesses tips on crime prevention, organizing community events such as National Night Out and teaching school children the basics of our Safe House program. She'll become an important conduit between the Police Department and the community we serve.

Diane is no stranger to community programs. Prior to getting hired as our CSO, she volunteered for the Dallas Library and then daily with the police department since spring 2010 helping to rebuild our community programs and volunteer cadre.

Diane, her husband Steve, and daughter Danielle make their home in Dallas and have lived here since the summer of 2008. Prior to that, they lived for nine years in Cove, a small town near La Grande and prior to that in the Portland area.

Her past experience includes 22 years in banking and owning her own small business. She also still currently serves as a volunteer board member for a small non-profit organization.

Please join us in welcoming Diane to the City team.

LIBRARY NEWS

"A library is not a luxury, but one of the necessities of life."

Henry Ward Beecher

The Dallas Public Library has added new resources to assist our community!

- ChiltonLibrary.com - Auto Repair Resource
- Ancestry.com - Genealogy Resource
- Powerspeak - Language Learning Resource

Did you know that our library is a drop off site for many organizations?

- Dallas Food Bank
- Box Tops 4 Education
- Lions Club - Used Eyeglasses and Hearing Aids
- Friends of the Library - Books, Audiobooks, DVD's Videos, CD's
- Greeting Cards (for St Jude's & the VA Hospital)

Friends of the Dallas Public Library

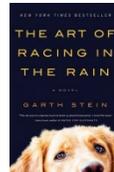

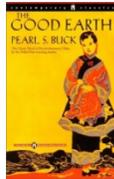

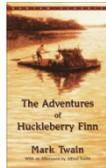

The Annual Book Sale was once again a great success, bringing in \$2,268.25 for the Friends of the Library. Through the year, books and materials are donated by our patrons and community members. These donated materials are either added to our current collection, put on the Friends Sale Shelf (in the front of the library), or boxed up for the next Annual Book Sale. We are happy to take donations year round!

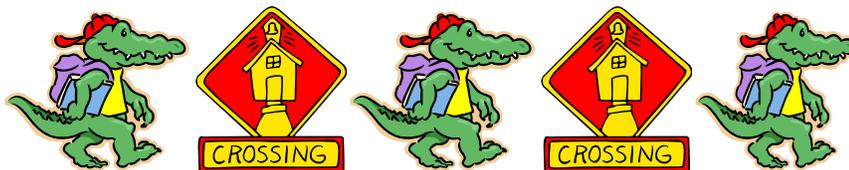

Book Discussion will resume again September 1st with **“The People of the Book”** by Pulitzer Prize winning author, Geraldine Brooks.

Below is the list of books for the remainder of the year:

- October 6 **The Adventures of Huckleberry Finn** Mark Twain
- November 3 **The Good Earth** Pearl Buck
- December 1 **The Art of Racing in the Rain** Garth Stein

Children's Room Programs and Activities

Infant/Toddler Storytime

Tuesdays at 11:15 a.m. Stories, finger plays, songs, and fun are geared for children from birth through age 3; however all ages are welcome. Grandparents and great-grandparents are very welcome!

Preschool Storytime

Thursdays at 11:15 a.m. This is geared toward children aged 4-6; however all ages are welcome. Stories, finger plays, songs, arts, crafts, and fun are offered. Grandparents who love to sing are urged to attend!

Summer Reading Program Wrap-Up

The 2011 Summer Reading Program has nearly come to a close and has been a great success with participation at an all time high. Over 2,500 people attended and enjoyed the events in the park and the Civic Center. The participants doubled this year over last year and are up from 1,106 in 2009. The children explored the world of science and magic, wrote poems, drew pictures, had a wonderful time making crafts, and enjoyed being read stories and watching performers.

Coming in September is the **1st Annual Library Card Roundup** when library staff and volunteers will visit the schools to talk about the Dallas Public Library and issue library cards. It is always fun to see the children and their parents come into the library to show off their brand new cards!

We will again this fall attempt to schedule programs when the schools are closed. With the cuts in the schools, resource sharing from the Public Library becomes more important than ever. The Dallas Public Library is joining other libraries in an attempt to pick up the slack to help educate children and ensure they become educated voters and are a vital part of the community, our state, country, and the world. During September we will begin with the Dallas Public Library taking a more active role in the Homeschooler's network. The Public Library is a vital part of the growing Homeschooler population and we are doing all we can to help these patrons in their quest for an independent education.

AQUATIC CENTER UPDATE

Swimming for the summer is winding down but the pool remains open all year. We will be open our regular swimming hours on Labor Day, with an added recreation swim from 1:00 p.m. to 5:00 p.m.

Enjoy the last full moon swim for adults only on September 12 from 8:00 p.m. to 9:00 p.m.

Swim lessons for the fall start September 12, with registration beginning August 29 for members and Aug 30 for non members.

Those of you who have enjoyed the benefits of an annual membership to the pool will be happy to hear you are invited to a "members only" BBQ and swim on September 18 from 5:30 p.m. to 7:30 p.m. There is no cost for this fun special event, but you must pick up an admittance ticket the week of September 5-16 so that we know how many will attend.

In October, look for the annual "Searching for Jack 'O' Lantern" Halloween Spook and Carnival event on Sunday October 30 from 6:30 p.m. to 9:00 p.m. Ladies Spa Night will be Sunday October 16, from 6:00 p.m. to 8:00 p.m.

VOLUNTEER OPPORTUNITIES

The City welcomes volunteers of all ages and skill levels. There are many different tasks available within several departments with the City and it's a great way to give back to your community. For more information and to download a volunteer application form, visit our website at <http://www.ci.dallas.or.us/index.aspx?NID=339>.

UPCOMING COMMUNITY EVENTS

The following is a list of upcoming events in the downtown area supported by the Dallas Area Chamber of Commerce and Dallas Area Visitors Center:

- ✚ Bounty Market is held downtown on Thursdays from 2:00 – 6:00 p.m. through September

For more information about events in Dallas, visit www.dallasoregon.org or call 503.623.2564.

UPCOMING CITY EVENTS

The following is a list of upcoming City events:

- ✚ Infant/Toddler Storytime at Dallas Public Library – Tuesdays at 11:15 a.m.
- ✚ Preschool Storytime at Dallas Public Library – Thursdays, at 11:15 a.m.
- ✚ Book Discussion: People of the Book by Geraldine Brooks – September 1, 2011 at noon
- ✚ Urban Renewal Advisory Committee Meeting – September 6, 2011 at 5:30 p.m.
- ✚ Dallas City Council Meeting – September 6, 2011 at 7:00 p.m.
- ✚ Planning Commission meeting – September 13, 2011 at 7:00 p.m.
- ✚ Council Workshop (topic: Goals) – September 14, 2011 at noon
- ✚ Economic Development Commission – September 15, 2011 at noon
- ✚ Dallas City Council Meeting – September 19, 2011 at 7:00 p.m.
- ✚ Administrative / Building & Grounds Committee Meetings – September 26, 2011 at 4:00 p.m.
- ✚ Park and Recreation Board Meeting – September 27, 2011 at 7:00 p.m.
- ✚ Dallas City Council Meeting – October 3, 2011 at 7:00 p.m.
- ✚ Urban Renewal District Advisory Committee meeting October 4, 2011 at 5:30 p.m.
- ✚ Book Discussion: The Adventures of Huckleberry Finn by Mark Twain – October 6, 2011 at noon
- ✚ Planning Commission Meeting – October 11, 2011 at 7:00 p.m.
- ✚ Dallas City Council Workshop (topic: to be determined) – October 12, 2011 at noon
- ✚ Dallas City Council Meeting – October 17, 2011 at 7:00 p.m.
- ✚ Public Safety & Public Works Subcommittee Meetings – October 24, 2011 at 4:00 p.m.
- ✚ Park and Recreation Board Meeting – October 25, 2011 at 7:00 p.m.

Meeting dates and times are subject to change. Please check the calendar on our website at www.ci.dallas.or.us for updates, cancellations, and additional events.

ADDITIONAL INFORMATION

If you would like to subscribe to the e-newsletter, please call or email the City Manager's office at 503.831.3502 or emily.gagner@ci.dallas.or.us. You can also visit our website at <http://www.ci.dallas.or.us/List.aspx> and sign up to receive notifications about various events in the City.

For up to the minute information on City events, please visit our web page at <http://www.ci.dallas.or.us/> and scroll down to the "News and Announcements" section. We also post all meetings and special Library and Aquatic Center activities on the Calendar section of the web page.

If you have any questions about anything in this e-newsletter, please contact the City Manager's office at 503.831.3502. We welcome your ideas and comments.

Easy Ways to Save Water

INSIDE THE HOME:

Since Water is a limited resource and it's essential to each of us every day, water conservation is important. By following these water conservation tips in the home, you can help conserve water every day, whether or not there is a drought"

Laundry Room

- Use washing machine for full loads only
- Purchase a high-efficiency clothes washer (you can save up to 20 gallons/load)

Kitchen

- Wash vegetables in a container, not under running water
- Use the dishwasher for full loads only
- Cool drinking water in a pitcher in the refrigerator
- Install aerators on the kitchen faucet

Bathroom

- Install low-flow shower heads
- Take shorter showers (showers kept under 5 minutes can save you about 15 gallons per shower)
- If you take a bath, fill the tub less than halfway (you can save 10-15 gallons per bath)
- Install an efficient, ultra low flow 1.6 gallons-per-flush toilet
- Install aerators on the bathroom faucets (most homes built after 1980 already have these features)
- Turn water off when brushing teeth and soaping hands
- Fill the sink when shaving instead of leaving the water run
- Don't use the toilet as a wastebasket

OUTSIDE THE HOME:

Landscape

- Irrigate your yard in the morning or evening when temperatures are cooler
- Check your sprinkler system frequently and adjust sprinklers so only your lawn is watered
- Choose a water-efficient irrigation system for your landscaping
- Water deeply but less frequently to create healthier and stronger landscapes
- Layer mulch around trees and plants to retain moisture in the soil
- Plant drought-resistant trees and plants

Cleanup

- Use a broom to clean driveways, sidewalks, patios, and walkways
- Wash cars/boats with a budget, sponge, and hose with a self-closing nozzle

Activities

- Teach children that the hose and sprinkler are not toys
- Install a pool/spa cover to reduce evaporation and filter backwash
- If draining a pool is necessary, find a use for the water
- Check your pool and plumbing for leaks

TIPS ON LEAKS:

Lots of water can be lost by little leaks. A small drip can waste up to 70 gallons of water in a day and more than 1,000 gallons a day can pour through a steady leak of one-sixteenth inch in size. Fix leaky faucets and toilets right away. When hot water is dripping, energy is also being wasted. Since a leak can be a major water waster, always fix any leak as soon as possible.

Pipe Leaks

To detect unseen leaks, read your water meter. Don't run any water for one hour, then read your water meter again. If the meter has moved, you may have a leak.

Toilet Leaks

Put food coloring in your toilet tank and wait 20 minutes. If it seeps into the toilet bowl, you have a leak. Many toilet leaks can be fixed with simple tools and a do-it-yourself manual.

Faucet Leaks

Most leaks, other than those in your toilet, are in the faucets and most are mainly due to worn washers. Check your tap a couple of times per year to make sure all your faucets are working properly.

September “National Preparedness Month”

You may need to survive on your own after an emergency. This means having your own food, water, and other supplies in sufficient quantity to last for at least three days. With the recent events across our nation, every American Family needs to be prepared. Your local emergency and first responders will be on scene but they will not be able to reach everyone immediately.

BASIC KIT SHOULD CONTAIN:

WATER: One gallon of water per person per day for at least three days, for drinking and sanitation. For a family of 5 peoples you should have at least 15 gallons of water, which will last approximately three days. Remember to keep track of the water you use to make sure you are not using more than you have accounted for.

FOOD: At least a three-day supply of non-perishable food. You and your family will need to determine how much food is needed for the three-day supply.

RADIO: You should have a battery powered radio or a hand crank radio. Make sure the radio is a NOAA Weather Radio with tone alerts. Extra batteries are also a must.

FIRST AID KIT: See information to the right for details.

WHISTLE: Used to signal for help.

DUST MASKS: Used to help filter contaminated air. Also have plastic sheeting and duct tape to shelter-in-place.

MOIST TOWELETTES, GARBAGE BAGS: Items used for personal sanitation

WRENCH OR PLIERS: Tools used to turn off basic utilities to your home.

CAN OPENER for FOOD

LOCAL MAPS

CELL PHONE WITH CHARGERS: Consider purchasing an inverter or solar charger.

ITEMS SPECIFIC TO YOUR FAMILIES NEEDS:

- DIAPERS
- PET FOOD / EXTRA WATER
- CASH / TRAVELER’S CHECKS
- IMPORTANT FAMILY INFO
- EMERGENCY REFERENCE BOOKS

FIRST AID KIT:

In the event of an emergency, you or a family member could possibly be injured by any number of things resulting from the emergency. It will be your responsibility to provide care for your family member during the first several days of the disaster. Having a first aid kit readily available to treat all types of injuries will be your first line of defense. Remember that roads may be washed out or blocked and emergency responders may not be able to get to you right away. Many injuries are non-life threatening and do not require immediate medical attention. Knowing how to treat minor injuries can make a difference in an emergency or natural disaster. Consider taking a basic first aid class to sharpen your skills. Kits should include the following items:

- STERILE GLOVES OR LATEX GLOVES
- STERILE DRESSINGS FOR BLEEDING
- CLEANSING AGENT / SOAP
- ANTIBIOTIC TOWELETTES
- ANTIBIOTIC OINTMENT
- BURN OINTMENT
- ADHESIVE BANDAGES OF VARIOUS SIZES
- EYE WASH SOLUTION
- THERMOMETER
- PRESCRIPTION MEDICATIONS
- PRESCRIBED MEDICAL SUPPLIES (GLUCOSE AND BLOOD PRESSURE EQUIPMENT WITH EXTRA BATTERIES)
- SCISSORS / TWEEZERS
- TUBE OF PETROLEUM JELLY
- NON-PRESCRIPTION DRUGS:
 - ASPIRIN / PAIN RELIEVER
 - ANTI-DIARRAHEA MEDICATION
 - ANTACIDS
 - LAXATIVES

EMERGENCY FAMILY PLAN:

Similar to your Family’s Emergency Escape Plan in the event of a fire in your home, your family needs to have a Disaster Emergency Family Plan. These plans should include the following information:

- ESTABLISH AN OUT-OF-TOWN CONTACT PERSON. IT MAY BE EASIER TO CALL LONG DISTANCE THAN ACROSS TOWN.
- COINS FOR PAY PHONE OR PRE-PAID PHONE CARDS.
- TEACH FAMILY MEMBERS HOW TO USE TEXT MESSAGING.
- SUBSCRIBE TO ALERT SERVICES .
- KNOW HOW TO CONTACT YOUR CHILD’S SCHOOL, FAMILY MEMBERS’ WORK NUMBERS AND DAYCARE PROVIDERS.

The preceding information is a general guideline on what may be needed in the event of a natural disaster or emergency situation. Please remember that you and your family may have to survive on your own for up to 3-days. Please plan your survival around the needs of your family. Emergency responders will get to you as soon as possible.

FOR MORE INFORMATION CONTACT:

Dallas Fire
Department
915 SE Shelton St.
Dallas, OR 97338
503.831.3533
